

LIST OF ADDITIONAL POSTERS

	Presenting author	Title of poster
PS1	Ondrej Bernatik	Tau tubulin kinase 2 substrates phosphorylation in cilia initiation
PS2	Ahmed Gad	Expression profiling of miRNAs in porcine oocytes with different developmental competence
PS3	Eva Hrubá	Pathophysiology of <i>Sprouty2</i> and its association with ciliopathies
PS4	Josef Jaros	3D bioprinting of stem cells and their microenvironment
PS5	Karol Kaiser	WNT5A governs branching morphogenesis of choroid plexus in the developing brain
PS6	Zuzana Koledová	Regulation of epithelial branching morphogenesis by fibroblasts: lessons from mammary gland
PS7	Alena Krejčí	NADH metabolism as regulator of <i>Drosophila</i> development
PS8	Vladimir Krylov	Identification and characterization of immature Sertoli cell progenitors derived from <i>Xenopus tropicalis</i> testis
PS9	Jan Nevoral	SIRT1 in oocyte: epigenetic and non-epigenetic mode of action
PS10	Tereza Smutná	Sub-chronic inhalation of lead oxide nanoparticles and its effect on target organs
PS11	Viktor Vedelek	Stage-specific transcriptome analysis in <i>Drosophila</i> testis
PS12	Cecilia Winata	Genomics dissection of the zebrafish heart
