

Life Sciences Seminar Series

Autumn 2019

MU LSSS-THURSDAY, 4:00 P.M.,
UNIVERSITY CAMPUS BOHUNICE, A11/132

MENDEL LECTURES-THURSDAY, 5:00 P.M.,
MENDEL MUSEUM'S AUGUSTINIAN ABBEY REFECTORY
(MENDELOVO MUZEUM, MENDLOVO NÁM. 1A)

SEPTEMBER

26.09.2019 | **Centrosomes and Cell Fate in the Developing Mouse**
HISHAM BAZZI, University of Cologne, Germany
Hosted by Lukáš Čajánek

OCTOBER

03.10.2019 | **Challenges of Selective Targeting of Protein Kinases in Cellular Environments**
STEFAN KNAPP, University of Oxford, UK
Hosted by Kamil Paruch

10.10.2019 | **Why are There so Many Species in Tropical Rainforests?**
VOJTĚCH NOVOTNÝ, University of South Bohemia in České Budějovice
Hosted by Stanislav Pekár

17.10.2019 | **Genomes within Genomes: the History of Wolbachia Bacterial Symbiosis with Nematodes**
MARK BLAXTER, University of Edinburgh, UK
Hosted by Joëlle Goüy de Bellocq

24.10.2019 | **Dynamic Recoding of the Transcriptome: How RNA Modifications Control Hypertension**
MICHAEL JANTSCH, Medical University of Vienna, Austria
Hosted by Mary O'Connell

31.10.2019 | **Conserving Genomic Diversity in a Changing World**
MICHAEL BRUFORD, Cardiff University, UK
Hosted by Josef Bryja

NOVEMBER

07.11.2019 | **RNA-mediated Genome Instability**
ANDRÉS AGUILERA, University of Sevilla, Spain
Hosted by Lumír Krejčí

14.11.2019 | **Antisense-mediated Chromatin Regulation**
CAROLINE DEAN, The John Innes Centre, UK
Hosted by Štěpánka Vaňáčková, Karel Říha

21.11.2019 | **Would Gregor Mendel be Alarmed that Designer Babies Walk Among Us?**
GERALD P. SCHATTEN, McGowan Institute for Regenerative Medicine, USA
Hosted by Martin Anger

28.11.2019 | **Integrative Studies of Immune Recognition Complexes**
NIKOLAOS SGOURAKIS, University of California, Santa Cruz, USA
Hosted by Konstantinos Tripsianes

DECEMBER

05.12.2019 | **Unlocking Secrets Kept for Some Time**
YIMON AYE, École Polytechnique Fédérale de Lausanne, France
Hosted by Jakub Švenda

12.12.2019 | **Base-modified Nucleic Acids for Applications in Diagnostics or Chemical Biology**
MICHAL HOCEK, Institute of Organic Chemistry and Biochemistry, Prague
Hosted by Vladimír Sklenář
