

Biomimetic Organic Memristors

Attractive Solutions for Computer Science and Business

10TH SEPTEMBER 2020, 10:00^{AM}

UNIVERSITY CAMPUS BOHUNICE, BRNO
BUILDING A11, ROOM 335

Biomimetic organic memristors are a new family of materials with attractive properties that make them compelling for computer science and business. We are pleased to invite you to a lecture where major topics in the field of memristors will be presented and discussed.

We also offer opportunities for collaboration.

Lecturer: Cina Foroutannejad, Ph. D

The event is free of charge.

Please register at helanej@sci.muni.cz (Helena Nejezchlebová) by 2 September 2020.
