

Italian online language courses starting in January and March 2022

There are n. 6 courses scheduled for January and March 2022, and **for each course there are n. 10 places reserved to EDUC students (2 students per University)**.

For the sake of a greater equity in the distribution of mobility opportunities, **students who are taking part in Erasmus or Gap Year mobilities can't attend the Italian language courses for free**, since they should be able to cover the course fee thanks to their grants. This choice will allow other students to freely attend the courses, increasing the number of involved students in mobility activities.

All students taking a course that is not an A1 level course must take the online level test to ensure they are placed in the correct group.

The selected students will receive an email from our colleagues of the International Office with the link for the course registration.
